PREFACE

The 52nd Ohio General Assembly of 1856, Vol. LIII, "Laws of Ohio" page 73, passed on April 18, 1856 "AN ACT to provide for the registration of births, marriages and deaths, in Ohio." This act reads, in part: "It shall be the duty of all physicians, surgeons and midwives, to keep a registry of all births and deaths at which they professionally attended." The act provides that the above persons were to answer certain enumerated questions regarding the child and/or deceased person and deposit in the County Clerk's Office of the various counties on or before the fifteenth day of March, in every year, a copy of said registry, embracing the period of one year, ending on the first day of March, last preceding the time of deposit. The Clerks were to deliver the copy to the assessor of the several townships in each county at the time that the Auditor of the county delivered instructions and blanks to such assessor to list taxable property. The assessors then were to go and ascertain all births marriages and deaths which occurred in the twelve months, ending on the first day of March, last preceding the time of assessment. They then returned their lists to the Clerks of the Courts of Common Pleas who were to preserve them for public inspection.

This act was repealed by the 57th General Assembly of 1867, Vol. LXLV, "Laws of Ohio", page 63, passed March 8, 1867 by "AN ACT to provide for the registry of births and deaths". In this act, to take effect and to be in force from and after July 1st, 1867, all records of births and deaths, together with answers to certain enumerated questions regarding the child and/or deceased person, were to be reported to the Probate Court by physicians who attended at births and deaths, professional midwives who attended at births, clergymen who officiated at funerals, and sextons who buried the dead. This is a brief outline of these two acts and further inquiry should be made to the acts themselves.

For years after the passage of these two acts the records of births and deaths are found to be confusing and inaccurately kep. Before these acts became law family Bibles and monuments in cemeteries were the only available evidence of births and deaths.

Cemetery Inscriptions of Highland County, Ohio
...David N. McBride & Jane N. McBride

The official records of births and deaths of Highland County, Ohio, begin in 1867 and are to be found in the Probate Court Office. However, in November, 1978, The Southern Ohio Genealogical Society, while cleaning and replacing files in this office after the Court House was refurbished, discovered two years of births and deaths recorded in compliance with the law that was enacted in 1856.

It was decided that these heretofore unpublished records should be made available to the public. Upon closer examination,however, it was found that they were faded, very difficult to read and extremely hard to extract. Several sessions by members of the Society were required before the information was completed in a satisfactory form.

The Executive Board of The Southern Ohio Genealogical Society wish to thank the following members for their help in all phases of this endeavor.

Barbara Carmean, Greenfield, Ohio - for laboriously pouring over the difficult handwriting and finally for indexing and typing the complete record.

Bonnie Crago, Hillsboro, Ohio - for bringing these records to the attention of the Society, and assisting with the initial extraction of the information. as well as cleaning the old records.

Leora Spindler, Mary Smith, Shirley Shields, Rita Kingery, Rosalie and Earl Mercer, Marie Knott, Emily Manker for assisting with the initial extraction of the records.

Martha Saylor, Ethel Noland, Mary Hamilton, Mary Margaret and Joseph West, Jean Wallis, Ray Roberts, Anna Lou Chaney, Lloyd Wilcox, Jewel Fling for their efforts in cleaning and refiling the Court House records which ultimately resulted in the finding of these long lost birth and death records.

INTRODUCTION

All spellings are as they appear on the original records and have been copied to the best of our ability. It would be wise for the researcher to check the entire index for name 'sounds' as well as misspellings. UMFRES may have been HUMPHREYS, or OSTIN for AUSTIN.

Where there was no year of birth or death written in by the county assessor, the year has been determined by this extractor according to the system they had used. However, the entries have been recorded at random and not in the order that the events occurred. So, keep in mind that the event could have occurred in either 1856 or 1857, particularly if the birth or death was in March.

The births and deaths are separate in the index.
BIRTHS : Index pages, 1 through 26.
DEATHS : Index pages, 27 through 31.

Our birth is but a sleep and a forgetting:
The soul that rises with us, our life's star,
Hath had elsewhere its setting,
And cometh from afar.
Not in·entire forgetfulness,
And not in utter nakedness,
But trailing clouds of glory do we come
From God, who is our home.
